

New in Kiosk 2.3

Enhancements

- FB 335** It is now possible to prevent a member making a second booking for the same activity within a specified time. For example if you book a 60 minute activity at 15.00 and the setting in Kiosk2 is 120 minutes, you will not be able to make another booking of the same activity until 17.00.
- FB 342** The images on the Kiosk messages have been updated.
- FB 330** Kiosk2 can support the printing of barcoded tickets and wristbands for products. For example, it is now possible to sell a product such as a swim to a member or non-member and produce a ticket or wristband to allow access.
- FB 347** Kiosk2 now supports the Entry Point Infringement Response of Allow Entry, Charge Infringement Price Level for all settings.
- FB 193** It is now possible to book the next week's session of the class a member is currently attending.
Members are able to book a session this week and the same session next week in one process.
Alternatively, members are able to collect their ticket for this week and book the session next week in one process.
- FB 307** Kiosk2 now supports party activities on a density booking sheet.
