12.40am-1.30pm

Lunch

1.30pm-2.45pm

Agenda items from the group

- SSRS. Taylor made have upgraded their servers so I need a date confirmed for Gladstone to set this up. Also I have said I don't need training, but if it has changed substantially since I last used it I may review this. It may be helpful to see a demo of the latest version. (David, Active Nation)
- Plus 2 version 10. Need details of enhancements changes from last version so operational changes can be planned in ready for upgrade. Also more detail on major changes such as course bookings and archiving (is this the management console?) (David, Active Nation)
- Connect version 3. As above. (David, Active Nation)
- Emails/marketing. Have heard talk of a new tool that links with the database for marketing, more details on this. (David, Active Nation)

2.45pm-3pm
